Material Safety Data Sheet (ANSI form)

Section1 : Chemical Product and Company Identification

Product Name	: RSL Pro Print Cartridge Magenta C751
General Use	: The Image Formation of Printing Machine or Copier
MSDS Number	: 828159
Company Name	: Ricoh Americas Corporation
Department	:
Address Telephone Number	: 5 Dedrick Place, West Caldwell, NJ 07006 : 1-973-882-2000 or 1-973-882-5218 (For product information) or 1-800-336-6737 (For emergencies) : 1-973-882-3959 : environmentinfo@ricoh-usa.com

This product does not contain any of the following substances as ingredients. Cadmium, Hexavalent Chromium, Mercury, Lead, Polybrominated biphenyls (PBB), Polybrominated diphenyleters (PBDE), SVHC (substances of very high concern: published by ECHA). And if it contains any impurities, it does not exceed any of the thresholds of RoHS.

The Most Important Hazards

Adverse Human Health Effects :

There are no significant hazards expected with intended use.

Potential Health Effects

Primary Entry Routes :

- Inhalation ; Yes
- Skin ; Yes

Ingestion ; Yes

Environmental Effects :

There are no significant hazards expected with intended use. Physical and Chemical Hazards :

There are no significant hazards expected with intended use.

Specific Hazards :

Dust explosion (like most finely grained organic powders)

Main Symptoms :

Acute Inhalation Toxicity

Exposure to excessive amount of dust may cause physical irritation to respiratory tract. Acute Oral Toxicity

Low acute toxicity in animal experiment.

Acute Eye Irritation

May cause slight transient irritation.

Acute Skin Irritation

May be non-irritant.

Sensitization

From test no apparent significant hazards are expected . (Only few cases reported on incidental allergy-related conjunctivitis or dermatitis.)

Chronic Effect

Slight pulmonary fibrosis has been reported in rats upon chronic inhalation exposure to a toner at 4mg/m3 every day for 2 years. No pulmonary change was found at 1mg/m3. These findings show that exposure to excessive amounts of powder may cause damage to lungs. However, normal use and handling of this product as intended, does not result in inhalation of excessive amounts of powder.

Carcinogenicity

Titanium dioxide contained in this product is classified to Group 2B of IARC as the result of inhalation test in use of rat.

But oral/skin test does not show carcinogenicity.

In the animal experiment with very high concentration of titanium dioxide (excessive burden of rat's lungs clearance mechanism (overload phenomenon)), the rat alone showed lung tumor. Under a normal use practice, the concentration should be far lower than the above; and it is assumed that there is no such use.

Also, relation between respiratory disease and work exposure of titanium dioxide is not observed with epidemiological survey.

Medical Conditions Aggravated by Exposure

Not applicable

Classification of the Chemical Product

This mixture is not classified as dangerous.

Section4 : First Aid Measures

Inhalation :

Remove from exposure into fresh air and rinse mouth with water. Seek medical advice. Skin Contact :

Wash thoroughly with soapy water.

Eye Contact :

Flush with a large amount of water until particles are removed. Seek medical advice.

Ingestion :

Drink several glasses of water to dilute ingested toner. Seek medical advice.

Immediate Medical Attention : Immediate medical attention is not required.

Section5 : Fire Fighting Measures			
Flash Point (degrees centigrade): Not applicableBurning Rate (mm/sec): 0.223 or belowAutoignition Temperature (degrees: Not availablecentigrade): Not available			
 Flammable Limits(%) : LEL Not available UEL Not available Extinguishing Media to Avoid : Not applicable. Specific Hazards : Can form explosive dust-air mixtures when finely dispersed in air. Fire-Fighting Instructions / Specific Method : No special fire protecting method is required. Sprinkling or fire extinguishers can be used. Protection of Firefighters : 			
Wear gloves, glasses, a mask if necessary.			
Section6 : Accidental Release Measures			
Personal Precautions :			

Do not breathe in dust. **Environment Precautions :**

Do not flush into sewers or watercourses.

Methods for Cleaning Up :

Confirm there is no source of fire and if there is a source, remove it. Sweep up spilled powder slowly and clean remainder with wet cloth.

Section7 : Handling and Storage

Handling :

Technical Measures/Precautions Not applicable Safe Handling Advice Do not handle in areas where there is wind or draught, this may cause dust to get into eyes. Avoid breathing in dust. Storage : **Technical Measures** Not applicable Storage Conditions Keep out of reach of children. Store in dry, well-ventilated area, to maintain quality the temperature should not exceed 35°C for a long time. Avoid direct sunlight. Packaging material Not applicable Specific Use(s) : Image formation in printing machines or copiers.

Section8 : Exposure Controls/Personal Protection

Technical measures : Use adequate ventilation. None required with intended use. **Control Parameters** Exposure Limit Value (I) PEL: 15mg/m3 (Total dust) 5.0mg/m3 (Respirable fraction) USA OSHA (TWA) ACGIH TLV (TWA) : 10mg/m3 (Inhalable fraction) 3.0mg/m3 (Respirable fraction) DFG MAK : 4.0mg/m3 (Total dust) 1.5mg/m3 (Respirable fraction) **Personal Protection** Respiratory Protections (Specify Type) None required in normal use. If the limit of exposure concentration is exceeded, use authorised respirator. Eye Protection Put on goggles if necessary. **Protective Gloves** Use vinyl or rubber gloves if necessary. Protective Clothing or Equipment Wear chemical-resistant apron or other impervious clothing if necessary. **Hygiene Measures** Wash hands after handling.

Section13 : Disposal Consideration

General information:

Dispose of waste and residues in accordance with local authority requirements.

Disposal methods:

Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal. Confirm disposal procedures with local regulations.

Precautions

Do not throw the toner cartridge or toner into an open flame. Hot toner may scatter and cause burns or other damage.
